Objective

I am always looking for new opportunities to explore, create, and learn all that I can. My passions offer unique avenues to discover new things, learn skills, connect to interesting people, and make beautiful pieces of self-expression.

Education

BFA New Media Design from Rochester Institute of Technology
AS New Media from Tompkins Cortland Community College

Work Experience

Owner, Talun Art LLC, March 2022 to present

I opened this company to share my work and network with other artists and business owners. I manage all aspects of the company by myself including sales, inventory, advertising, taxes, event planning, and communication.

Freelance Designer, self-employed, April 2018 to March 2022

Requested by various individuals and companies to provide design work for a range of products including advertising fliers, websites, logos, and more.

Shift Supervisor, CVS Pharmacy, September 2022 to present

Responsible for many aspects of store operations including inventory management, cash security, cleaning, supporting cashiers, sales analysis, customer service and much more. Assists pharmacists in inventory and customer related tasks while observing HIPAA guidelines. Also handles much of the one-hour photo services to provide quality photo projects to customers.

Volunteer and Intern Work

Board Member, Queer Handmade Rochester

Works with a small team to ensure the success of a community of LGBTQIA+ artists with semi-annual art sales and attending outreach events to spread the knowledge of our group and further support our artists. Responsible for most graphic design for the group, assists with the social media feed on Instagram and Facebook to create educational content, also runs the community Discord to facilitate communication between artists.

Graphic Designer, Flower City Pride Band

Oversaw the rebrand of the Flower City Pride Band graphics package with a new logo, social media post styling, uniform update, and website design.

Animal Care and Research Intern, Seneca Park Zoo, Fall 2019

Interned with the goal of animal behavior research and general care for a wide variety of creatures. Assisted zoo keepers with their daily assignments such as cleaning, food preparation, basic medical care, training, enclosure repairs, and designing enrichment.
